

POST/CON 24

Hi **(Manager Name)**,

I'd like to get your approval to attend POST/CON 24 on April 30 and May 1 in San Francisco. This is Postman's biggest API conference ever and a must-attend for anyone who works closely with APIs.

Here's what POST/CON 24 looks like:

One day of hands-on API workshops, which will benefit both myself and our team when it comes to testing, monitoring, and deploying our APIs

One day of presentations from industry leaders in sectors including AI, who will share best API practices. Plus, Postman will offer live demos of their latest product updates, which we can use to further streamline our API workflows and boost collaboration

Here's a rough breakdown of the conference costs:

but if we act early, we'll get huge discounts on the price of conference passes:

- Two-day pass: **\$1,195 (50% off through Feb. 20, then 30% off through Mar. 26)**
- One-day pass: **\$495 (50% off through Feb. 20, then 30% off through Mar. 26)**
- Airfare: **(add cost)**
- Round trip transportation between airport and hotel: **(add cost)**
- Hotel: **(add cost)**
- Meals: **(add cost)**
- Total: **(add total cost)**

I think POST/CON 24 could be a smart investment. If I attend, I'll be sure to share the key takeaways, best practices, and recommendations afterward so everyone can benefit.

Thanks,
(XXX)
